SUBJECT ENTRY REQUIREMENTS

Kaplan Professional recommends that students who are new to industry (students with less than 6 months experience in the finance sector) complete the optional subject, Introduction to Finance Principles (IFP)*.

Students who have previously completed FNS40820 or FNS40821 Certificate IV in Finance and Mortgage Broking may enrol into FNS50322 Diploma of Finance and Mortgage Broking Management and the units of competency may be recognised through [credit transfer](#) as the first subject of the Diploma; Industry Knowledge and the Lending Process (DIPMB1). These students would not be required to complete the optional introductory subject, Introduction to Finance Principles (IFP).

Individuals are required to be 18 years and over to enrol in this subject.

Individuals who are in Australia on a student visa are unable to enrol in this subject. If you are in Australia on a visa and wish to enrol, you need to check that you are enrolling in accordance with the study conditions of your visa.

SUBJECT DURATION

Students have a total of:

- 12 weeks to complete the learning and assessment requirements for the DIPMB2 Complex Lending and Broking, from their initial enrolment date.
- An additional four (4) weeks resubmission time, which will be granted if all assessment tasks have been attempted and the student has been deemed 'not yet competent' in one or more tasks. This time can be used to resubmit a written and oral assignment or resit an exam. There is no fee for this extension.

Therefore, if a student completes the learning and assessment, and the resubmission time is granted, the duration will be 16 weeks.

Including all of the subjects in this qualification (IFP, DIPMB1, DIPMB2 and DIPMB3) the total duration for the FNS50322 Diploma of Finance and Mortgage Broking Management is 42 – 54 weeks

The **amount of training** for this subject may be up to 10 hours per week. The amount of training is the hours a student can expect to spend engaged in structured learning or tutor-led activities.

The assessment hours for this subject are 9 hours per week. These are the hours a student can expect engaging in assessment activities.

In addition to the amount of training and assessment hours, students who are new to industry or vocational training could need up to 7 hours per week known as **unsupervised hours**. These additional hours are for study skills or further research. For example, a student not working in industry would need more time to review industry websites that are usually introduced in workplace compliance training.

Students working in the industry may be able to complete this subject requirements in a shorter timeframe or less hours per week.

If a student applies for extensions beyond the 16-week completion timeframe or is granted special consideration, and is enrolled in FNS50322 Diploma of Finance and Mortgage Broking Management, the maximum period of time to complete the qualification is two years from the qualification activation date. If enrolling in single subjects with the intention of completing a qualification, the two-year timeframe is calculated from the initial activation date of the first subject.
